

Ultraviolet

Fred V & Grafix

Something
Slowly
Building up from the groundTouch me
Softly
I choose you from the crowd
From the crowd
You bring my heart to life againRunning
Only
To get closer to youNow my
Vision
Is so focused on you
On you, on youI couldn't see before
But now I see it all
You bring my heart to life again
Now I can see in ultravioletMy arms are open wide
I'm blinded by your light
You bring my heart to life again
Now I can see in ultravioletYou bring my heart to life again
Now I can see in ultraviolet(Ohh, Ohh, Ohh)Running
Only
To get closer to youNow my
Vision
Is so focused on you
On you, on youI couldn't see before
But now I see it all
You bring my heart to life again
Now I can see in ultravioletMy arms are open wide
I'm blinded by your light
You bring my heart to life again
Now I can see in ultraviolet(Ohh, Ohh, Ohh)I couldn't see before
But now I see it all
You bring my heart to life again
Now I can see in ultravioletMy arms are open wide
I'm blinded by your light
You bring my heart to life again
Now I can see in ultraviolet
