

# Wonder

## The Kite String Tangle

I wanted it all, wanted what I could not control  
I just cannot control it all  
Levelled it off to a place where I could feel alive  
and I'm not weighed down at all  
Learning a lot, learning that I've just gotta let go  
I cannot carry it all, It's not who I was  
Taking me back to this place  
Where I loved when I was just a boy  
Don't you wanna just remember  
Who you are?  
I wanna be back in our summer  
Do you remember?  
Come with me  
No room for thunder  
No going under  
I wanna be, free, breathe  
Dream About our summer  
I'll always wonder

Yeah we wandered around  
Swimming at night under the stars  
and no-one there to bring us down  
We'll never be down  
Now I know that when I think back  
All this stuff's a state of mind  
Don't you wanna just remember  
Who you are?  
I wanna be back in our summer  
Do you remember?  
Come with me  
No room for thunder  
Not going under  
I wanna be, as good as it was  
It wasn't enough, I wanted it all  
I wanted too much, I'll never forget  
About our summer  
I'll always wonder about our summer.
