

# Mommy

## Cenobites

Once a day  
Your voice is everything I need  
And all the things you've done  
Give me power to succeed  
I felt so many times  
But you pulled me through  
But in time I find myself yeah  
I hope you see that too

Cause when I feel scared  
Sometimes I do  
And when I feel scared  
It seems that life is harder than I ever knew  
Yeah when I feel scared  
You are the only one  
Who knows just what to say  
So here am I to thank you

And hey there little girl  
Wake up and see  
And take your time to grow  
Cause that is what you really need  
And I cried so many times but  
You pulled me through  
And I know it sounds clich
