

What a Lovely Dance

Hal

What a lovely dance
Wasn't looking for romance but I found it
What a pretty day
Rain and wind that came soon went away Just like my love, ooo but she'll come back someday
Feels like I lost both of my gloves
And my hat has blown away
I can only live in hope, only live in hope and pray What a special night
Wasn't thinking 'bout what was wrong but what was right
It's such a pretty day
That rain and wind that came soon went away Just like my love, ooo but she'll come back someday
Feels like I lost both of my gloves
And my hat has blown away
I can only live in hope, only live in hope and pray Just like my love, ooo but she'll come back some day
Feels like I lost both of my gloves
And my hat has blown away
But I can only live in hope, only live in hope and pray We can't and we won't, we can't live without
We can't, we can't live without hope
We can't, we won't live without hope
We can't and we won't live without hope
