

# No Name #3

**Elliott Smith**

We arrived too late, our mouths were opening  
I turned off the light, so come on night  
You're a witness you, you've seen me interrupt  
A good old fashioned fight, so come on night  
Everyone is gone, home to oblivion  
Home to oblivion, home to oblivion

Watched the dying day blushing in the sky  
Everyone is uptight, so come on night  
Everyone is gone, home to oblivion  
Home to oblivion, home to oblivion, home to oblivion  
I know we're not illegitimate in our hearing  
So come on, so come on night
