Love Is Not The Enemy

Europe

It's glowing on the outside
Coming by the moonlight
Looking at this blue thing
Falling by the waste time
The years keep on calling
Riding on a moonbeam
Having on a daydream
Crash the barricades, raise the alarm
We've forgotten how to feel
Break the silence, shout it out
Call the angels there's a friend in need
Love is not the enemy
Love is not the enemy
Looking at the bright side
Walking in the sunshine
Loving this blue thing
Want it in my life
The years keep on calling
We headed for Venus
No sign of life
Crash the barricades, don't be afraid
We've forgotten how to feel
Break the silence, shout it out
Call the angels there's a friend in need
Love is not the enemy
Love is not the enemy
Oh, can you feel it? Does anybody care?
Oh, do you need it? Say a little prayer
Oh, can you feel it? Does anybody care?
Oh, do you need it? Say a little prayer
Crash the barricades, raise the alarm
We've forgotten how to feel
Break the silence, shout it out
Call the angels there's a friend in need, oh
Break the silence, shout it out
Call the angels there's a friend in need
Love is not the enemy
Love is not the enemy
Oh, can you feel it? Does anybody care?

Oh, do you need it? Say a little prayer
Oh, can you feel it? Does anybody care?
Oh, do you need it? Say a little prayer
