Temporary Friend

Emma Louise

(parfitt / rossi / bown / edwards / rich)Where can I go? who can I find to talk to
Boy, do I know it don't look so bright to me
Because I'm heading down the road, carrying the load on my shoulders
Passing time away, drinking through the day aloneHow could I know 'cos you never show your feelings
Why did you go? why d'ya walk out on me
I couldn't see the cards that you were dealing
It's you I can't shake, I just gotta break your spellBecause I'm looking for the cover of a temporary friend
Oh I don't want to be member of the lonely again
Oh I'm a-heading for the gutter and I'm close to the end
Because I'm looking for the cover of a temporary friendYou gotta see, you gotta see my meaning
How can I survive? I'm out here on my own
You gotta give, give me something to believe in
Somebody to love, somebody to take me homeBecause I'm looking for the cover of a temporary friend
Oh I don't want to be member of the lonely again
Oh I'm a-heading for the gutter and I'm close to the end
Because I'm looking for the cover of a temporary friendBecause I'm looking for the cover of a temporary friend
Oh I don't want to be member of the lonely again
Oh I'm a-heading for the gutter and I'm close to the end
Because I'm looking for the cover of a temporary friend
Because I'm looking for the cover of a temporary friend
