

Animal On Drugs

Cassie Hatcher

You make me feel like an animal on drugs
You took my heart made a sailboat IT SUNK.
Well I'd play you i'd play you i'd play you at your own. Own games.
If only if only if only I was not so fucking afraid.

YOUR what your head fell off again?
I'm not just some dumb trend.
Just push a little more
What are you waiting for.

Your what. Your what excuse is dead. Just humour me instead. Just kill me even more what are you waiting for.

You made it seem, like you never saw a thing. You took my brain. Made a paper hat. It rained. I'd play you I'd
play you I'd play you at your own. Own games.
If only, if only, if only I still had the brains. Chorus.

Your what. Your head fell off again?
I'm not just some dumb trend.
Just push a little more what are you waiting for?

YOUR WHAT your head fell off again
I'm not just some dumb trend.
Just push a little more what are you waiting for your WHAT> YOUR SANITY IS DEAD? Well what a shame.
I read you like a fucking animal on drugs.
