

# Crossroads (feat. J. Ralph)

## Matisyahu

Its like I'm walking through this kingdom of time  
This far I've done lost my mind  
Only to find the other side Where the world opens wide  
To descend these city streets late at night  
I've been searching for my bite  
They say I inspire, but I'm still looking for my fire  
These lies have got me tired  
I'm done stalling, I'm free falling  
I'm done climbing up this mountain top  
I won't stop till I manifest my crop  
The top is close I'm sky scraping  
They stay chasing  
I'm like I'm racing in the sun  
I'm running from death's invasion  
They're done, I'm going gray  
I'm still young having mystic visions of the one  
I hear the hum, the melody comes  
Rushing in like some wind  
Cuts close like a knife  
All I got is my life  
All I got is my life Crossroads, one million miles  
I'm pickin' up dirt when I fly by  
Crossroads, one million miles  
I'm pickin' up dirt when I fly by The rain is falling drizzle dropping on the street  
Cleaning off the dirt beneath my feet  
I got the speed on repeat  
While I'm riding subway trains over tracks  
On a fact that go clack  
My heart is black but intact  
I've come to take the music back  
I'm moving forward, it sounds you can't ignore it  
I put the pedal on the floor, stay pure  
Through the time that has come  
The time has come I launch for it I'm tight rope  
Walking over fiery flames and hot coals  
I'm like water for you trolls  
I pay no tolls  
I speak to ghosts  
I'll find the most high in the cracks that you walk by

I got my eyes in tuned to see you bloom  
I'll magically fly I'll find gold  
which is true, which way to choose to crossroads  
But I'll never give my soul  
It's already owned Crossroads, one million miles  
I'm pickin' up dirt when I fly by  
Crossroads, one million miles  
I'm pickin' up dirt when I fly by I'm a slave to the throne  
The chariot, flames, it's my home  
I'm in a class of my own  
Lights out, you're all alone, with you heart of stone  
heart of stone Crossroads, one million  
I'm at the crossroads, one million  
I'm at the crossroads, one million miles  
I'm pickin' up dirt when I fly by....
