

Hurricanes (Right Behind You)

Oh No Not Stereo

You had plenty of time and you still died
sharks and leeches, guns and stolen tv's
desperation made you realize
you can't blame yourself,
you put it on everyone else.it's right behind you, yeah yeah.they gave you a warning
and you still didn't run
you locked all the doors
and fell asleep with your gun
now it's over, we can turn this around
my brother's dying
and my neighborhood's upside downit's right behind you, yeah yeah.
