

Feel It

UFO

I hear the jukebox on its full playback
Her high-heeled shoes go clickity-clack
Sweet, sweet Suzy, dress way low
Does a dance just to let you know You wanna feel it, feel it
Breaks your heart if you don't leave her alone
Feel it, feel it
It's one quick walk out in the danger zone Ooh, it's a love that makes you burn
Ooh, well, a promise that you can keep
Ooh, every head she can, she turns
Ooh, well, that's love The boys in Danny's bar and Grill
Swapping stories an' the old cheap thrill
But you pick up the air as she walks in
She'll never talk much or try it again You wanna feel it, feel it
Break your heart if you don't leave her alone
Feel it, feel it
It's one quick walk out in the danger zone Ooh, it's a love that makes you burn
Ooh, well, a promise that you can keep
Ooh, every head she can, she turns
Ooh, when you get that love to keep Every night she'll make you dream a little more
With a smile that opens every door
In her eyes you can see the promises
One kiss tells everything Ooh, it's a love that makes you burn
Ooh, well, a promise that you can keep
Ooh, every head she can, she turns
Ooh, well, that's love Some girls you live with and some you need
This girl's the one, gonna make you bleed
See her strut, she moves from head to toe
What you ain't got she'll never know You wanna feel it, feel it
Break your heart if you don't leave her alone
Feel it, feel it
It's one quick walk out in the danger zone Ooh, it's a love that makes you burn
Ooh, well, a promise that you can keep
Ooh, every head she can, she turns
Ooh, when you get that love to keep Ooh, it's a love that makes you burn
Ooh, well, a promise that you can keep
Ooh, every head she can, she turns
Ooh, well, that's love
