

# Left Out (Demo)

## Shinedown

Where's that space of fear you hide?  
Have you gone way beyond the center  
Out there in space  
I know you need to get even  
Tell me the one about the hand that holds you down  
Because the bruise on your face, it always seems to stay around  
And tell me the one about the hand that holds you down  
Because you seem to be lost, with no intention to be found[Chorus:]  
So how does it feel  
And how does it feel  
To be the one whose always in the way  
To be the words that never made the page  
Be the one that's always  
Left out in the rainTell me again about the spark that met the flame  
And tell me again about the man who went insane  
Is there a place within for redemption  
Is there a voice inside with a decision  
And if so when, and if so then, where's the conviction?[Chorus]I know that you need to get even  
And I know it's for all the right reasons  
And I, well I know that you're staring at the edge  
And I, well I know that you need to get even[Chorus]
