Down in the City

L.A. Guns

Advisory - the following lyrics contain explicit language:

Boy shoots a gun, a girl looks for fun
Runnin' wild in the Hollywood streets
Shakedown, all around, lay your dirty money down
Can't always get what you needMidnight, cool, right, die in the moonlight
Cure for the social disease
Sex fiends, acid queens, livin' on a bad dream
This town never sleepsDown in the city
Givin' you what you need
Down in the city
Make your poor heart bleedLivin' by the trigger, always better if it's bigger
Won't catch me down on my knees
Shake it down, lay it down, Sin City all around
Hollywood's the city of sleazeLoose change, no name, lookin' for a fast way
To make it to the top of the heap
Face down, gutter bound, laughin' at the poor clown
Walkin' on his name in the streetDown in the city
Give you what you need
Down in the city
Make your poor heart bleedBoy shoots a gun, a girl looks for fun
Runnin' wild in the Hollywood streets
Shakedown, all around, lay your dirty money down
You can't always get what you needLoose change, no name, lookin' for a fast way
To make it to the top of the heap
Face down, gutter bound, laughin' at the poor clown
Walkin' on his name in the streetDown in the city
Give you what you need
Down in the city
Make your poor heart bleedDown in the city
Give you what you need
Down in the city
It's good enough for meYou're gonna burn
