

# The Disease & the Cure

## Kutless

I've been infected with the latest disease  
An epidemic thats infecting the weak  
It doesnt matter how I plead  
Because I cant escape itIts my temptation  
Its so contagiousTheres something wrong with me, inside Im wanting to be free  
But the more I give the more consuming it just seems to be  
I know its what I need to find a cure for this disease  
To save me from all of my self-deprecationIs there a way to clean the sin off of me?  
Is there anyone with a vaccine?  
Ill take the shot even if I bleed  
As long as it can heal meAnd I will do whatever I need  
To uncontaminate and then proceed  
Is it too late to forgive and forget?  
Can someone help me?Its my temptation  
Its so contagiousTheres something wrong with me, inside Im wanting to be free  
But the more I give the more consuming it just seems to be  
I know its what I need to find a cure for this disease  
To save me from all of my self-deprecationThere only is one cure that is why I pray  
Jesus please take it awayTheres something wrong with me, inside Im wanting to be free  
But the more I give the more consuming it just seems to be  
I know its what I need to find a cure for this disease  
To save me from all of my self-deprecation
