

# Pure

## The Butterfly Effect

You make me dirty make me feel like a whore  
Right here where you want me down with the fleas in the floor  
Still you tried to clean me bleach away like stains  
Blackened ash in your mouth won't distil your distain  
It doesn't matter when you say I'm not clean anymore  
It doesn't matter when you say I'm dirty like a whore

Here it's nothing  
For you there is nothing pure
