Rockets in My Head

AstroPuppees

I tried to get your attention
But it was never mine to keep
You laughed at my record collection
Now you got me crying in my sleepIt's my turn now
Got rockets in my head
I tried counting sheep
Now I count you instead
Got rockets in my head
Just when I thought it was over
I keep in mind the things that I let go
I laugh at myself getting nowhere
I never thought that I could sink so low
It's my turn now
Got rockets in my head
I tried counting sheep
Now I count you instead
Got rockets in my head(Break)Count on you instead
Got rockets in my head
