

More Than That

Lauren Jauregui

[Verse 1]

I see you watching so I walked into your stare
Cause I ain't in no position to be walking over there
I gotta situation I can tell you wanna know
And you can take an honest girl and turn into a...
If I'mma take a gamble then you better come for it
I need more than the diamonds that you got around your neck
Shit, anybody can flex , my baby does it best
If you wanna do better then we might just make a deal[Pre-Chorus]
I know I ain't right for tempting you
But I just wanna see what you would do
If I give you a taste of what I do
Just remember that I don't belong to you

[Chorus]

You gonna have to come
Stronger than this liquor
Wanna take me home
Better be more convincing
It'll take more than that to get to me
More than that to get to me
Boy, you better come
Stronger than this liquor
Wanna take me home
Better be more more convincing
It'll take more than that to get to me
More than that to get to me
I'm stronger than this liquor

[Verse 2]

If my man know there's gon' be some issues
But take my number down and that's my issue
Nah, I'm just playing I'm so deep in love
But the way you talking 'bout you got me actin' up
The way you looking at me boy I know what's up
I can feel how you feel but without even a touch
And that's not gonna make me give it up
Boy, your time is up[Pre-Chorus]
I know I ain't right for tempting you
But I just wanna see what you would do
If I give you a taste of what I do

Just remember that I don't belong to you[Chorus]

You gonna have to come

Stronger than this liquor

Wanna take me home

Better be more convincing

It'll take more than that to get to me

More than that to get to me

Boy you better come

Stronger than this liquor

Wanna take me home

Better be more convincing

It will take more than that to get to me

More than that to get to me

I'm stronger than this liquor[End]

It'll take more than that
