

Smack

3 Doors Down

Rubber headed motor junky, run me down
And try to stomp me
Throw my life away, and Ill be worthless
Just like youSomewhere now a babys crying
Down the road his mothers dying
Shot a line and blew her mind and
Now shes turning blueDont you throw your life away
Just wait until another day
Dont you throw your life away
'Cause baby I can feel itDont you ever compromise it
Dont you even realize it
Dont throw your life away
'Cause baby I can feel it, nowTrip and fall, Im sure you all can tell me
What is on the wall
Behind the liquor store where you get
Smacked up all the timePerfect little life you wasted
Overdosed and that death you tasted
Scared you back into yourself
And now you walk the lineDont you throw your life away
Just wait until another day
Dont you throw your life away
'Cause baby I can feel itDont you ever compromise it
Dont you even realize it
Dont throw your life away
'Cause baby I can feel it, nowLife away
Life away
Life away
