

Howl

Red Sky Mary

I've seen it
Don't want to live it
Do without it
On my own
Can't fake it
I can't escape it
It keeps me running
All alone
Up all day
Up all night
Keep on moving till the day I die(CHORUS)
Aw yeah, all right
Howl baby
Aw yeah, all right
Oh, howl at the moon in the dead of nightIt's a prison cell
Living in this hell
I'm not staying
No, no, no
Got to be free
And do what I please
Stop your praying
I won't go
Wind is blowing
The moon is rising
Stare straight into the Devil's eyes(CHORUS)Oh, oh, oh-woo!I will be right to you
Will you be right to me?
We're gonna stand together now
Under the moon in perfect harmony
And I love the way she walks
And I love the way she talks
And I love the way she moves
And I love the way she howls, for us(CHORUS)
