Snow

This is mega mega breakdown
So give me the crown
So I can flip as a lyrics needs ad lib
I shootin' with the giftLift like a twelve gauge
Leavin' in a daze
'Cause Snow is in a rage
Praisin' like a preacherKnowledge of a teacher
Wicked as a tyrant
Heritage Irish
No not JamaicanMoves I ain't fakin'
It would be mistakin'
For me to be taken
I'll buy another
So run for coverAnd when I strike
Take flight like Nikes
'Cause I come solo
Aka Snow
And when I let you knowYou got a hard way
Hard long and stiff
But that's only if
You decide to riff and get flippedFlipped like a hooker
Paid full in time
I'm known to design
I sing, chant and rhymeThe week that I trample
So here's an example
I am ample, yes, I am ample
Swift with the tongueMy new style of drum
I got real busy like a bee and then I stung
Well changing up the styles
And into the piles
Swinging through the files, 'cause I'm aCreative childWell back to the flow
You know I'm here to go
Now with this record jam dance
Ya stand tippy-toe becauseAll the talk no jokin', talk no, all the talk for me
All the talk no jokin', talk no, all the talk for me
Now what did I do
Now what did I trainI'm often can't get me own
But leave every time we go because of spiritual [unverified] it goes
All the talk no jokin' talk no all the talk for me

At the dance the women DJ come for free
Now me say hush up your mouth
No bigger keep sighing little lord
The fun that I beat them up enough argument
Now what me gonna do am I gonna get violent
And gonna come down my house and them tear down my fence
A [unverified] kicked a ball through my window
This is something that you mustn't really know because
All the talk no jokin', talk no, all the talk for me
All the talk no jokin', talk no, all the talk for me
Lord have mercy
Creative child
