

Two Characters in Search of a Country Song

The Magnetic Fields

You were just like me, you were one big bruise
In the game of life we were playing too lose
You were Jesse James, I was William Tell
You were Daniel Webster, I was the devil himselfTwo characters in search of a country song
Just make believe but so in love
Two characters been listin' all night long
For voices from Nashville aboveHell on eighteen wheels at a hundred per
We went crashing through the Jersey barrier
But the road went on over dale and hill
You were Calamity Jane and I was Wild BillTwo characters in search of a country song
Just make believe but so in love
Two characters been listin' all night long
For voices from Nashville above
