

Rock Me Stupid

[Nikki Flores](#)

Come on over here baby. Listen to me close. You could be the one i'm looking for.
Excuse me if. I'm coming on strong. But i had a couple drinks and i'm vulnerable.
You look like a man that know how to use his hands and i bet that you can take control.
Yeah, i'm a little wild but i wont apologize. Cause you want me like i'm wanting you.

So take my hand.

Don't you wanna get away with me tonight. You know you got a green light.

Here's the plan.

You can have your way with me if it feels right. So baby make it feel right.
Take me, shake me, break me, make me. Everything you want and more. Baby, rock me stupid.

Rock me stupid.

Roll me, hold me. Boy control me. Til i feel it in my core. Baby, rock me stupid.

Rock me stupid.

We can set it off. Do you feel me getting hot. When your hands are riding down my waist.
This ain't the time to talk. Keep on working turn me on i don't care what you got to say.

I know what you want. Gotta show me what you got, 'fore i let you take it all away.
Once you get me there. Boy you better be prepared. Cause i ain't holding back a thing.

So take my hand.

Don't you wanna get away with me tonight. You know you got a green light.

Here's the plan.

You can have your way with me if it feels right. So baby make it feel right.
Take me, shake me, break me, make me. Everything you want and more. Baby, rock me stupid.

Rock me stupid.

Roll me, hold me. Boy control me. Til i feel it in my core. Baby, rock me stupid.

Rock me stupid.

Take me, shake me, break me, make me. Everything you want and more. Baby, rock me stupid.

Rock me stupid.

Roll me, hold me. Boy control me. Til i feel it in my core. Baby, rock me stupid.

Rock me stupid.
