Family

Dar Williams

Can you fix this? It's a broken heart
It was fine but it just fell apart
It was mine but now I give it to you
'Cause you can fix it, you know what to doLet your love cover me
Like a pair of angel wings
You are my family
You are my familyWe stood outside in the summer rain
Different people with a common pain
A simple box in that hard red clay
Is where we left him to always remainLet your love cover me
Like a pair of angel wings
You are my family
You are my familyThe child who played with the moon and stars
Waves a snatch of hay in a common barn
In the lonely house of Adam's fall
Lies a child, it's just a child that's all, cryingLet your love cover me
Like a pair of angel wings
You are my family, you are my family
You are my family, you are my family
