Stick Together

The Superjesus

I know what I'm facing and what I'm facing don't know me
And I'll wait and I'll tell you once again
If you only gave the guidelines, I'd be better off knowing when
I'd be better off knowing whenBurning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together
Now, stick together nowI've seen what I'm doing and what I'm doing is best for me
And it's all gotta go before we're done
It's the only kind of opinion that I could give to anyone
I could give to anyoneBurning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick togetherBurning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together
Now, stick togetherKnow what you're coming for
No need to tell you no more
A little bit in store keeps us guessingKnow what you're coming for
No need to tell you no more
A little bit in store keeps us guessingBurning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick togetherBurning the candle is all I can handle
We'll save energy if we stick together
Taking you over a shy Casanova
We'll save energy if we stick together now
Stick together now, stick together now
Stick together now
