

How Many Miles Away?

Andreas Moe

Breathe
Breathe
I'm pacing back and forth, I'm on my feet
But I'm going nowhere
Feel
Feel
I suffocate my heart so I can clear my soul
Please
Please
I don't know what I need
But I've walked enough of these dead end- streets
I need to free them of the ocean breeze
How Many Miles Away?
To where I don't even know my name
Tell me what plane to take
To rise above all the mistakes I made
How Many Miles Away?
To the sun is out of the shades
How Many Miles Away? Dreams
Dreams
I told you Wake me up
On the still underway the colors
Real
Real
I loose myself in words, one of it lost in my own stories
And love
Love
I just wanna love
And feel the rush inside from falling
And feel the rush inside from falling
How Many Miles Away?
To where I don't even know my name
Tell me what plane to take
To rise above all the mistakes I made
How Many Miles Away?
To the sun is out of the shades
How Many Miles Away? I leave my half-drunk coffe cup
and my seret just gutter up
I leave my house with the door unlocked

They're just things, take what you want
How Many Miles Away?

To where I don't even know my name

Tell me what plane to take

To rise above all the mistakes I made

How Many Miles Away?

To the sun is out of the shades

How Many Miles Away?
To the sun is out of the shades

How Many Miles Away?

To the sun is out of the shades

How Many Miles Away?

How Many Miles Away?
How Many Miles Away?

How Many Miles Away?
