

# Golden Mile

Mary Black

I'm walkin' along golden mile with a soldier's twirl  
I must be the luckiest soul in the whole wide world  
O foolish thing here I go again There's no faith more innocent than blind faith  
And that's all I've got  
So I'm scaling the walls of my dreams  
Ready or not  
O foolish thing here I go again Chorus Don't be afraid darling no need to be afraid darling  
You don't have to be afraid from now on  
It's just the way darling we get delayed darling  
But we won't be delayed from now on I know no power on earth nor up above  
That would alter the way things are  
You are my love  
You're my pride and joy on the golden mile If only it could be captured how I feel for you  
And if I could just freeze it I feel I'd never be untrue  
O foolish thing here I go again Chorus
