Hey Santa

Wilson Phillips

If everyday was Christmas
If we could make believe
If everyone would give a little more
There'd be harmonyThe city is covered in snow tonight
The children are fast asleep
I'm waiting for him
But he's no where in sight
And I wonder if he can hear meHey Santa
Hey Santa (Santa)
I wish with all my might
Hey Santa (Santa)
Bring my baby home tonightWhy does it feel like it's colder than winter
Even by the fire side
My baby said that he'd be home for Christmas
And now it's almost midnightChristmas lights up and down the street
Are such a sight to see
But all the presents by the tree
They don't mean a thing 'til he's with meHey Santa
Hey Santa (Santa)
I wish with all my might
Hey Santa
Hey Santa (Santa)
If you hear me wont you hurry bring my baby tonightI know your sleigh is full inside
But wont you stop and give my baby a ride
I'll be waiting by candle light this Christmas
OhhhChristmas lights up and down the street
Are such a sight to see
But all the presents by the tree
They don't mean a thing, Santa, please here meHey Santa
Hey Santa (Santa)
I wish with all my might
Hey Santa
Hey Santa (Santa)
If you hear me wont you hurry bring my baby tonightChristmas lights up and down the street
Presents by the tree
I hear a knock
Oh, can it be
My wish is staring back at meHey Santa
Hey Santa (Santa)

I guess you heard me tonight, yeah
Hey Santa
Hey Santa (Santa)
I'm underneath the mistletoe with my baby tonight(Sleigh ride, sleigh ride (repeat))
It's Christmas Time
Hey Santa
