Don't Preach To Me

Street Dogs

Take your soapbox rants and your politics
Stick them where the sun don't shine
Won't solicit your advice
You're on the red carpet
Espousing your opinions
Why can't you just shut your mouth
Don't tell us how to feelDon't preach to me, I cannot hear you
Don't preach to me, we really won't care
Don't preach to me, you're so self-righteous
You're a celebrityThey wear views on their sleeves
Thinking that it counts
But we have minds of our own
Sarandon shut your mouth
Just stick to the acting
Films and TV shows
Give us time to think for ourselves
Please give us that muchYet these stars don't get it
We have minds of our own
We're capable of opinions
Madonna hit the road
