Haven

Bravestation

Before the dawn, i awake
Morning came to paradise
There beside me, in peacefull sleep
A princess hiding for the nightYou know they say
That nothing last forever
And memories will fade awayTogether, in perfect harmony
Forever, escaping destiny
Gathering thoughts
In the haven of the lost
The wilderness around us solvesThe taste of freedom, all around
I hear the water hit the shore
The concreed jungle, so far away
A peacefull soldier will returnYou know they say
Some things can last forever
And memories will fade awayTogether, in perfect harmony
Forever, escaping destiny
An angel, in perfect harmony
With an stranger, escaping destiny
Gathering thoughts
In the haven of the lost
The wilderness around us solvesI crossed the sky
Like an eagle I spread my wings
Now my heart is finally free, so free[solo]Together, in perfect harmony
Forever, escaping destiny
An angel, in perfect harmony
With an stranger, escaping destiny
Gathering thoughts
In the haven of the lost
The wilderness around us solves
