

No Ideas

Parquet Courts

What could I even say to you Rene?
If I could stop reacting then I'd be acting like your fool because
What could I even say to you Rene?
I could follow you but then you'd never see me right behind you I went to a shrink and he found my brain
And I have no ideas is what he found
I went to a shrink and he found my brain
And I have no ideas is what he found
No ideas is what he found
No ideas What could I even say to you Rene?
I could meditate and sleep all day but I'd never know what the first step to take was
What could I even say to you Rene?
Are we candles or are we wax, and with facts like that I'll never know how to relax I went to a shrink and he
found my brain
And I have no ideas is what he found
I went to a shrink and he found my brain
And I have no ideas is what he found
No ideas is what he found
No ideas
