## No Ideas

## **Parquet Courts**

What could I even say to you Rene?

If I could stop reacting then I'd be acting like your fool because

What could I even say to you Rene?

I could follow you but then you'd never see me right behind youI went to a shrink and he found my brain

And I have no ideas is what he found

I went to a shrink and he found my brain

And I have no ideas is what he found

No ideas is what he found

No ideasWhat could I even say to you Rene?

I could meditate and sleep all day but I'd never know what the first step to take was

What could I even say to you Rene?

Are we candles or are we wax, and with facts like that I'll never know how to relaxI went to a shrink and he

found my brain

And I have no ideas is what he found

I went to a shrink and he found my brain

And I have no ideas is what he found

No ideas is what he found

No ideas
