

# Are We Dead?

## Astorian Stigmata

If you want me  
Then this is your chance  
And if you need me  
Well, we can't be friends forever  
And if you leave me  
Then I'll be the one you'll be looking for  
For the rest of your days

Looking back, my brain said something  
Are we dead?  
Looking back, my head said something  
Are we dead?  
Are we dead?

If you forget me  
Then I'll understand  
That's just one more thing  
I can hide with a smile  
And my minds so busy  
But It finds the time  
To sit right here and wonder why

Looking back, my brain said something  
Are we dead?  
Looking back, my head said something  
Are we dead?  
Are we dead?

Take this memory  
Looking back, my brain said something  
Are we dead?  
Looking back, my head said something  
Are we dead?  
Are we dead?  
We're we dead?
