

Starbreaker (Judas Priest Cover)

Arch Enemy

Look out, here's Starbreaker
Cruisin' into town
Set his mind to stealin'
Every little heart around Step out on the sidewalks
If you're feeling game
He comes but once a lifetime
Never seen again Starbreaker
Glides in from the sky
Starbreaker
Takes you up so high Paradise is waiting
For the chosen few
Let's hope maybe this time
He picks me and you Star voyage to a new world
Light-year miles away
Cross your fingers, here he is,
Take us now this day Starbreaker
Glides in from the sky
Starbreaker
Takes you up so high Starbreaker, take my hand
Starbreaker, understand
Starbreaker, you're the one
Starbreaker, lead us on, and on Look out, here's Starbreaker
Cruisin' into town
Set his mind to stealin'
Every little heart around Step out on the sidewalks
If you're feeling game
He comes but once a lifetime
Never ever seen again Starbreaker
Glides in from the sky
Starbreaker
Takes you up so high
