

# One night in your skin

## Glasshouse

You, are the doubt,  
That I never lived without,  
And it shows, through the cracks,  
When your foot is on my back,  
And I choke

Give me one night in your skin,  
So I can find out, what you are,  
Give me one night in your skin,  
So I can touch it,  
I can break it,  
I can...

You took the life,  
That I always should have had,  
And it's safe where you sit,  
While I'm wollowing in shit,  
In shit

Give me one night in your skin,  
So I can found out what you are,  
Give me one night in your skin,  
So I can touch it,  
I can hold it,  
I can squeeze it,  
I can break it,  
I can...  
I can...

Halala (continuous).

One night in your skin,  
One night in your skin,  
So I can touch it,  
I can hold it,  
I can squeeze it,  
I can break it,  
I can,  
I can,  
I can,

I can

So I can touch it,  
I can hold it,  
I can squeeze it,  
I can break it,  
In your skin...  
In your skin...

So I can touch it,  
Can hold it,  
I can squeeze it,  
Can break it,  
One night in your skin,  
One night in your skin.
