

# Dance

## Darin

Girl, I can't help myself  
I'm stuck on the view  
I like the way you do  
The tricks that you do You're flirting with the music  
Like it's your boo  
Got me lost in my fantasy  
Picturing you and me It's been a while and I still wonder  
If I'll take your hand, take over  
Control your body just for the night Let me bless your hips just like you want to  
Every step I share is with you  
Let me do it right, do it right You give me reason to party  
I'll probably spend all my money  
The way you dance, dance, dance  
Dance, dance, dance, dance Got your spell on everybody  
Girl, you're an artist in naughty  
The way you dance, dance, dance  
Dance, dance, dance, dance And I don't see why I should stop  
'Cause all we gotta do tonight is  
Dance, dance, dance, dance  
Dance, dance, dance I feel the ice is melting  
Because of you  
This drink could never ever  
Compete with you The way you make me feel  
It's hard to be true  
I'm so drunk on the energy you  
Putting inside of me It's been a while and I still wonder  
If I'll take your hand, take over  
Control your body just for the night Let me bless your hips just like you want to  
Every step I share is with you  
Let me do it right, do it right You give me reason to party  
I'll probably spend all my money  
The way you dance, dance, dance  
Dance, dance, dance, dance Got your spell on everybody  
Girl, you're an artist in naughty  
The way you dance, dance, dance  
Dance, dance, dance, dance And I don't see why I should stop  
'Cause all we gotta do tonight is  
Dance, dance, dance, dance  
Dance, dance, dance Ey Mr. DJ, please do me a favor

Turn it up a little bit  
I wanna do this numberSee, I got this little shorty  
Acting like she really want it  
And for sure she gonna get it  
And she give me, give me, give meYou give me reason to party  
I'll probably spend all my money  
The way you dance, dance, dance  
Dance, dance, dance, danceGot your spell on everybody  
Girl, you're an artist in naughty  
The way you dance, dance, dance  
Dance, dance, dance, danceAnd I don't see why I should stop  
'Cause all we gotta do tonight is  
Dance, dance, dance, dance  
Dance, dance, danceThe way you dance  
The way you dance  
The way you dance  
The way you dance  
The way you dance
