Black Pot

Santa Esmeralda

Took a plane 'cross a one-way border
Lost my way and I just don't know
If I'll be stayin'
Someone let out the word they got me
I got trouble and I don't know
The game they're playin'
What do you know tell me which way to go
I'm a no-one
Hey mister please now I'm down on my knees
I beg you pleaseBlack pot of fire
Black pot I'm higher
I see the world spinning 'round now I'm high off the ground
I don't believe
Black pot of fire
Black pot I'm higher
I really don't understand why am I in this land
Of make believeLittle man with a two-way face on
I don't know what you want from me
What are you sayin'
I'm so high in the sky-hi-hi-hi
I don't know and I just don't care
For what they're playin'
What do you know tell me which way to go
I'm a no-one
Hey mister please now I'm down on my knees
I'll beg you pleaseBlack pot of fire
Black pot I'm higher
I see the world spinning 'round now I'm high off the ground
I don't believe
Black pot of fire
Black pot I'm high, higher
I really don't understand why am I in this land
Of make believe, oh
