So Blind

Dishwalla

You feel nervous
So much you can't swallow
Now you sit here worthless
Watch her sing, watch her shaking up my life
You're so blind
You're so blind
(I know that you know)
She makes me feel
Like a man in a spaceship going down
Where no one has gone before
Far away, so far away from here
You're so blind
You're so blind
(I know that you know)
You're so blind
(I know that you know)
Tonight could be all that is pure
For a night on the Lincoln bedroom floor
Too much is enough for us to burn
Shut up and listen to your life
You're so blind
Listen to your life
(You're so blind)
I know that you know
Listen to your life
You're so blind
(I know that you know)
You're so blind
You're so blind
(I know that you know)
