

# Out There

Kristine W

Walking away from  
All I've known  
Wind in my hair  
On this winding road  
A bag full of dreams  
And a heart full of hope  
A checklist of love  
In this old overcoat If I move fast now  
This freedom has to  
Lead me right into your arms  
I'll caper past you  
This freedom has to  
Put me right where I belong Yeah, yeah  
Right there where I belong I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere  
I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere You've passed through my dreams  
About a million times  
And I felt you there  
In a, a new sunrise  
Now maybe I missed you  
When you walked on that beach  
Could you have been there  
Right with, within my reach If I move fast now  
This freedom has to  
Lead me right into your arms  
I'll caper past you  
This freedom has to  
Put me right where I belong Yeah, yeah  
Right there where I belong I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere  
I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere (I want you here)  
(Right now)  
(Oh, you've gotta be out there)

(I'mma search)  
(Right now)  
(Oh, you've gotta be out there)I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere  
I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhereIf I move fast now  
This freedom has to  
Lead me right into your arms  
I'll caper past you  
This freedom has to  
Put me right where I belongYeah, yeah  
Right there where I belongI mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere  
I mean you've gotta be out there  
(You've gotta be somewhere)  
You've gotta be out there somewhere
