

# Twin Flames

## In This Moment

Baby watch as I step into flames for you  
Baby watch me combust and explode for you

Baby watch as I burn

Baby watch as I burn for you

One last time We were on fire

A frequency of me and you

We were on fire

One flame bursting into two

We were on fire

We watched the whole world burn away

We were on fire

I was you and baby you were me

You crawled into these flames with me

So watch me dance

And watch me fly

For you, one last show my dear

In the purple

Baby watch as I crawl

Baby watch as I crawl away

From you one last time We were on fire

A frequency of me and you

We were on fire

One flame bursting into two

We were on fire

We watched the whole world burn away

We were on fire

I was you and baby you were me

We were on fire

A frequency of me and you

We were on fire

One flame splitting into two

Yeah we were on fire

A frequency of me and you

We were on fire

One flame bursting into two

We were on fire

We watched the whole world burn away

We were on fire

I was you and baby you were me

We were on fire

We were on fire

We were on fire

I was you and baby you were me

Crawled into these flames with me
