Forever the Sickest Kids

Advisory - the following lyrics contain explicit language:

So get in or get out before your mom cracks down
Honest, it's a touch, too much to get down
So get up or lie down 'cause either way we're making out tonight
Alone, alone tonight I put forth the effort to keep you happy for a while
We're two weeks in and here we are again, here we are again
And when it's over and done I cannot get out of this place that I am in
When every one of your words, they mean nothing
I cannot get closer to you
Where do you get off telling me constantly, what I'm gonna be
That I'll be just fine if I cannot be close to you
(To you) And so you gave me a second chance
It was my first intent to make you believe me
So tell me the way you felt the morning after
Tell me the way you felt, you wanted to hear it, so here it goes And when it's over and done I cannot get out of
this place that I am in
When every one of your words, they mean nothing
If I cannot get closer to you
Where do you get off telling me constantly, what I'm gonna be
I'll be just fine if I cannot be close Can't we just agree to disagree? It's a sad thing
(Come on, baby, I don't want to)
Can't we just agree to disagree? It's a sad thing
(And I love you too) Can't we just agree to disagree? It's a sad thing
(Come on, baby, I don't want to)
Can't we just agree to disagree? It's a sad thing
(Come on, baby, I don't want to) And when it's over and done
I cannot get out of this place that I am in
Oh, this place that I am in I cannot get out of this place that I am in
When every one of your words, they mean nothing
If I cannot be close to you, where do you get off telling me constantly
What I'm gonna be, that I'll be just fine if I cannot be close to you
