Helium (feat. Brett Patterson)

Monica Laire

I know that about it.
I can't live without it.
Gravity is keeping me down.
Head on my shoulder,
After it's over.
You say the words what they'll say.
Can't nobody love you boy like I do.
Can't nobody feel you girl like I do.
Whenever, I feel you, I feel up my lungs.
Getting high off your love.
Take me up, I wanna touch the sky.
Wanna be with you, with you babe.
Let the world pass us by.
Take me up, I wanna touch the sky.
Only with you, with you babe.
Let the world pass us by.
If this isn't heaven, I don't wanna go.
Cause you are the wishings that I live for.
Whenever, I feel you, I feel up my lungs.
And get high off your love.
Take me up, I wanna touch the sky.
Wanna be with you, with you babe.
Let the world pass us by.
Take me up, I wanna touch the sky.
Only with you, with you babe.
Let the world pass us by.
Nobody's ever rather be alone with you girl.
No matter what to say, remember I'm here with you girl.
Nana.
She can get to me, cause baby I'll see you.
Oooohh.
Take me up, I wanna touch the sky. (Ooooohhhh)
Only with you, with you babe.
Let the world pass us by.
Take me up, I wanna touch the sky.
Only with you, with you babe.
Let the world pass us by.
