

Caveman

Jimmy Eat World

A monster lives in your backyard
The 2 by 4s are making their way around
The big get bigger when the fight's done
I found that secret door A man with a shovel's gonna dig deep down
To find out where it feeds a house A catalog full of nothing good
The white house ponders, no remorse
The big get bigger when the fight's done
I found that secret door A man with a shovel's gonna dig deep down
To find out where it feeds a house It seems like a drag to be torn apart
By unexpected hands
It's in your name, it's in your face
I'm wrong again, I'm wrong again
I'm wrong again, I'm wrong again
I'm wrong again, I'm wrong again
