

# More Than I Can Bear (2010)

Matt Bianco

I find it hard to sleep at night this jealousy is burning bright.

Visions of somebody else torments me to destruction.

I think of him making

making love to you it's more than I can -

It's more than I can bear

more than I can bear.

When I saw you - it's more than I can bear -

Walking down the road with someone new -

it's more than I can bear -

I couldn't believe that it's true -

It's more than I can bear - that it's true.

When I saw you - it's more than I can bear -

Walking down the road with someone new -

it's more than I can bear -

I closed my eyes

I know I'm over you -

It's more than I can bear - over you. When I saw you walking down the road with someone new I closed my eyes

I know I'm over you

over you.

I still love you

baby

it's more than I can bear.

I still love you

baby

it's more than I can bear.

I still love you

baby

it's more than I can bear.

When I saw you

it's more than I can bear It's more than I

it's more than I can bear.

It's more than I can bear

it's more than I it's more than I can bear.

It's more than I can bear

it's more than I can bear It's more than I can bear

it's more than I can bear.
