

City Invasion

Red Alert

Saturday comes a city prepares
Theyâ€™re getting set for mass invasion
Donâ€™t wanna be there when violence flares
Police waiting at the nation

Violence - erupting on streets of hate
City - under invasion
Fighting - Forget the football
A city under invasion

Pubs taken over - shops ransacked
Where are the pigs when theyâ€™re needed most
Innocent people being attacked
Another fight for peace is lost

Extra police are drafted in
Terraces become a battleground
Donâ€™t care about the match - Lose or win
Another fan gets kicked to the ground
