

# To Love

## Rebel Clique

Down the road a piece he was waiting  
Yes, he was waiting and you know me  
    I had had my fill of hesitating  
    And I always knew it had to be  
    To love, to love, to love, to love  
    All you need's the opportunity  
    To love, to love, to love, to love  
    Baby don't you make a fool of me  
    I never will forget our first encounter  
Yes, I'm proud to say that it was all right  
And I was so glad that I had found him  
    As ready as I was that night  
    To love, to love, to love, to love  
    All you need's the opportunity  
    To love, to love, to love, to love  
    Baby don't you make a fool of me  
    There are those of us too cool for passion  
    They're the ones that it could do some good  
    And there are those who say it's out of fashion  
    They're the ones who only wish they could  
    To love, to love, to love, to love  
    All you need's the opportunity  
    To love, to love, to love, to love  
    Baby don't you make a fool of me  
    Baby don't you make a fool of me  
    Baby, don't you make a fool of me  
    Baby, don't you make a fool of me  
    Baby, don't you make a fool of me
