Summer Love

Keshia Chante

I looked in his pretty brown eyes and ever since I saw him
Ive been checking for him seriously
And when he walks by I say hi
He dont reply like he doesnt even notice me
But I know its all a front
I can tell he really wants to come close and kick it to me
But hes running out of time
Hurry up and make up your mind[Chorus:]
Im falling like autumn leaves
you call like a winter breeze
Cant wait til spring comes and leaves
Cause I miss what I was getting in the summer time
I remember (remember my)Summer Love, Summer Love (remember my)
Summer Love, Summer Love
Now that its cold I dont know here to go
I cant wait for the seasons to change to bring me back to my
Summer Love, Summer Love (I remember my)
Summer Love, Summer Love (I remember my)
Summer Love, Summer Love
All I want is to take back the day we had to say goodbyeI would of held on really tight
If I would of realized that night we were gonna part
Drove me crazy to go and even though Im gone
I left him with a piece of my heart
Though the seasons change my feelings remain
And I know they will always be
Until I find my summer love, hes all Ill be thinking of[Chorus:]
Im falling like autumn leaves
you call like a winter breeze
Cant wait til spring comes and leaves
Cause I miss what I was getting in the summer time
I remember (I remember my)Summer Love, Summer Love (remember my)
Summer Love, Summer Love
Now that its cold I dont know here to go
I cant wait for the seasons to change to bring me back to my
Summer Love, Summer Love (I remember my)
Summer Love, Summer Love (I remember my)
Summer Love, Summer Love
All I want is to take back the day we had to say goodbyeIm just telling you what you told me baby,
Never thought you could be so cold to me baby

Just when I thought you would go with me baby
Where did you go my summer love?
Either Im confused or you lied to me baby
Why you couldnt be here to ryde with me baby?
In the middle of July you leave baby
Where did you go my summer love?[Chorus]We had to say goodbye... we had to say goodbye...
