

Charm Offensive

Islands

Calm geometry
There's something in the light
Torn asunder and you wonder why
It don't work right Turn to face it
Resisting narcotic embrace
To taste, to fall away
Without a trace Turn to face it
Resisting narcotic embrace
To taste, to fall away
Dont fall away
I know the way out
(Is it the way in)
We'll play the ending
(At the beggining)
Some inhalation
(Breathe and be patient)
Some are broken
(Some observations) Thats old, a charm offensive
Thats the real gold
So pull back the shades
And see the darkness fades Like time
like one long line
Folded in 8 or 9
The love you find there
Will free your mind
Seems like a perfect plan
Dreams you can always stay
But I'd like to understand
And I'd like to find a way
I'd like to put it back together some day
