## **Feel Good**

## **Robin Thicke**

Does it feel good

Does it feel good

Does it feel real good

Does it feel good

Does it feel goodIf it told that I love

Would you run away or would you run to me

I need to know it baby

If gave you all my loving would you give it back

What would you do with that

I asked a lot of that

And if gave you all my time when its the summer time

I know my down time, girl that's a lot of time

If I'm falling over you, then what you gonna do

I wanna come with you, I wanna run with you

I'd give you all my loving to you

I'd give you all my loving to youDoes it feel good

Does it feel good

Does it feel good

Does it feel real good

Does it feel good

Does it feel good

Does it feel good

Does it feel goodIf I partied till the morning

Would you stay with me

Girl would you play with me

Or would you hate on me

If I ran all out of money

Would you pay for me or would you stray from me

I need to know it baby

If there's something that I could do

To make you see the light

Girl that I treat you right

I'd do it every night

Every second that I'm with you is a special world

Like I'm your only man, and you're my only girlI'd give you all my loving to you

I'd give you all my loving to youDoes it feel good

Does it feel good

Does it feel good

Does it feel real good

Does it feel good

Does it feel good

Does it feel good

Does it feel goodDoes it feel good

Oh babe oh darling

Does it feel good

Does it feel goodI'd give you all my loving to you I'd give you all my loving to youDoes it feel good

Does it feel good

Does it feel good

Does it feel real good

Does it feel good

Does it feel good

Does it feel good

Does it feel good
