

# Don't Turn Me Away

## Air Supply

We shared such a special love, it seemed to have no end  
But now it hurts me just to remember  
Your eyes used to tell me so much that words could never find  
And now you say, you don't know where your future lies  
But you've got to find it now or get left behind  
Don't turn me away, I can't forget it all in just one day  
Take some time to speak your mind but say, "It's not over"  
Don't turn me away, don't close the door on us this way  
I'm so sure that there's much more you just have to tell me  
Remember those fireside nights, it's not that long ago  
You said you wanted to stay there forever  
I gave you the strength of my hand when things were running low  
I didn't know you would go back on what you said  
There must be some reasons there that you don't want to share  
Don't turn me away, I can't forget it all in just  
one day  
Take some time to speak your mind but say, "It's not over"  
Don't turn me away, don't close the door on us this way  
I'm so sure that there's much more, you just have to tell me  
And just when you needed me I said I'd be there  
until the end  
What is it that's changed in you when all I want is to be your friend?  
I need a friend  
Don't turn me away  
(Don't turn me away)  
Don't turn me away  
Don't turn me away  
(Don't turn me away)  
Don't turn me away  
Don't turn me away  
(Don't turn me away)  
Don't turn me away  
Don't turn me away, don't turn me away  
Take some time to speak your mind but say, "It's not over"  
Don't turn me away  
Take some time to speak your mind but say, "It's not over"  
Don't turn me away  
Take some time to speak your mind but say, "It's not over"
