

Crucifixion

Deicide

Give praise to Satan, he has won
You will give praise to Satan
Lord of lords, kind of kings
Spread your wings
Haunted by the righteous one, bent of my repention
Crucifixion Lucifer, save me from destruction
Holy priest that can't confirm, shun the cross of evil
Violent but undisturbed, wait for thee
To die upon the cross
To die uncertain death
From whom you place it on
Crucifixion - Thee unholy denominations
Crucifixion - Holy termination
You will give praise to Satan
Impaled vibration, Crucifixion
Levitating act of
death, messenger of Satan's mass
Blinded by the crucifix, sacrilegious impalement
Kill the chosen, righteous son, claim the cross inverted one
Everlasting hell damnation, from the lord, Crucifixion
To die upon the cross
To die uncertain death
From whom you place it on
Crucifixion - Thee unholy denominations
Crucifixion - Holy termination
Where's my crucifix?
I can't die without it.
